The Hunting Pig.
[From the "Elk Run Gazette."]

Although swine are generally so stupid as to have furnished an odious cant appellation for the multitude of our own species, they are by no means destitute of sagacity. But the short life to which we doom them unfortunately precludes all improvement. In proof of their intellectual endowment it might be sufficient to recite numerous instances of learned pigs usually exhibited in travelling menageries.

But an instance more truly surprising than these is that of the Pinkard sow, which was broken by Robert Coons of Fauquier, Va., to find game, back and stand nearly as well as a pointer.

This sow, which is a thin, long-legged, fiddle-faced animal, when very young, conceived so great a partiality to some pointer puppies that Coons was breaking, that she played and often came to feed with them. From this circumstance it occurred to Coons, (to use his own expression,) that "having broke many a dog as obstinate as a pig, he would try if he could not also succeed in breaking a pig." The little sow would often go out with the puppies to some distance from home; and he enticed her further with shelled corn which was carried in one pocket. His other pocket was filled with stones which he threw at the pig when she misbehaved as he was not able to catch and correct her in the same manner as he did his dogs.

Coons informed Professor Ralls that he found the sow tractable, and that he easily taught her what he wished by this mode of reward and punishment. Professor Ralls says he has frequently seen her out with Coons, when she quartered her ground as regularly as any pointer, stood when she came on her game (having an excellent nose) and backed the dogs as well as he ever saw a pointer, and with ears erect and tail closely curled. When she came on a cold scent of game she slackened her trot, and gradually dropped her ears and tail till she was certain, and then fell down on her knees. So staunch was she that she would frequently remain five minutes and upwards on her point. As soon as the game rose she always returned to Coons, grunting very loudly for her reward of shelled corn if it was not immediately given to her.

Mr. Coons has not practiced this pig for several years, except for the purpose of occasionally amusing his friends. In doing this a few is put in a net and hid in the room sedge; and then this extraordinary animal never fails to point it in the manner above stated. It is the intention of Mr. Coons to exhibit this pig at the Agricultural Fair to be held at Culpeper Court-house this week.

A WILD PIGEON ROOST.—Probably the largest pigeon roost ever known in Maryland is now existing on the farm of Mr. Wm. Schley, near Oakland, in Allegany county. The pigeons collect nightly on a tract of ground covered with alder bushes occupying about six acres. The pigeons first appeared about ten days ago in countless flocks. The Cumberland News says: "The flocking pigeons gradually settled down upon the bushes, until they were bent to the ground by the weight of the birds. Still more pigeons came flying in from distant points and continued to settle down upon the already living mass, until the whole five or six acres were compactly covered. So great was the number of birds that they were piled upon each other in places from one to two feet in depth. The pigeons continued flocking in and settling upon and among each other from about four o'clock in the afternoon until midnight, when at last they became still, and prepared for their night's rest. With the early dawn of the morning flock after flock arose and flew away in all directions, which departures were continued until about nine o'clock, when the place was deserted and not a living bird to be seen during the remainder of the day, until toward evening, when they again began flocking back to the same roosts, and the scenes of the evening before were again to be witnessed; and all this has occurred daily for the past ten days. It is estimated that all the flocks of pigeons for perhaps fifty or sixty miles around thus gather at this one spot each evening during their annual migratory visit to the immense forest regions of the Alleghany Mountains in quest of the heavy mast of acorns surrounding there. This is the only roost known this season in this or any of the bordering counties, and is perhaps the only one within a circle of several hundred miles. It is a well established fact within a very large territory, during their stoppage by the way, use only place only as a roost at night. At this wonderful roost on Col. Schley's place, thousands and thousands of pigeons have been nightly captured by men and boys, with guns, clubs and bags. After nightfall a person can go among the birds and scoop them into the mouth of a bag. It is needless to add that thousands of them have been wantonly shot, and allowed to remain upon the ground where they died.

A most extraordinary use of advertising as a means for the promotion of crime was recently revealed in the criminal courts of Australia. Two young men named Nicholas and Lester, both from England and both persons of some education, after pursuing successful lives for several years with varying success, hit upon the idea of using the advertising columns of the newspapers to assist them in their designs. Nicholas began the business by advertising in the Sydney journals for a companion to a lady in the country. Numerous applicants presented themselves, but only those were selected who were well provided with luggage. These were engaged and sent one after another into the bush, where they were robbed of all they had. While serving a term in prison for these robberies Nicholas became acquainted with Lester, who was serving a term for forgery, and when the two were discharged they concluded to unite their interests and try their fortune together. By advertising they got hold of a young man who had some money, took him down the river Paramatta and murdered him, having first drugged him with laudanum. Encouraged by their success in this instance, a few days afterward they captured and murdered another victim and might have proceeded with their work indefinitely if their last crime had not been discovered. The facts in both of these cases were brought out on the trial of the culprits, who were convicted and promptly hanged in Sydney, the city which they had made the centre of their operations.

DRUGS AND CHEMICALS.
SIMMONS' LIVER REGULATOR.
This unrivalled Medicine is warranted not to contain a single particle of MERCURY, or any injurious mineral substance, but is a PURELY VEGETABLE.

For FORTY YEARS it has proved its great value in all diseases of the LIVER, BOWELS and KIDNEYS. Thousands of the good and great in all parts of the country vouch for its wonderful and peculiar power in purifying the Blood, stimulating the torpid LIVER and BOWELS, and imparting new Life and Vigor to the whole system. SIMMONS' LIVER REGULATOR is acknowledged to have no equal as a LIVER MEDICINE.

It contains four medicinal elements, never united in the same happy proportion in any other preparation, viz: A gentle Cathartic, a wonderful Tonic, an unexceptionable Alternative and a certain Corrective of all impurities of the body. Such signal success has attended its use, that it is now regarded as the

MEDICAL.
BALTO. LOCK HOSPITAL.
DR. JOHNSTON.
Physician of this celebrated institution, has discovered the most Certain, Speedy, Pleasant and Effective Remedy in the world for all
DISEASES OF IMPRUDENCE.
Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Trembling, Dimness of Sight, or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—these terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the songs of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, &c.
YOUNG MEN.
Especially, who have become the victims of Solitary Vice, and dreadful and destructive habits which annually sweep to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to extasy the living lyre, may call with full confidence.
MARRIAGE.
Married persons, or Young Men contemplating marriage, aware of Physical Weakness, Loss of Procreative Power—(Impotency), Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Disqualification, speedily relieved.
He who cannot confide in the care of Dr. J. M. Johnston, who has cured thousands of his patients, and confidently rely upon his skill as a physician.
ORGANIC WEAKNESS.
Immediately cured and Full Vigor Restored.
This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the consequences that may ensue. Now, who that understands the subject will pretend to deny that the natural powers are lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind are induced. The system becomes deranged, the Physical and Mental Functions weakened. Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, and Wasting of the Frame, Cough, Consumption, Decay and Death.
A CURE WARRANTED IN TWO DAY
Relief in Six Hours! No Mercury!
Persons ruined by Ignorant, Trifling Pretenders and their Deadly Poison, should apply immediately.
DR. JOHNSTON.
Member of the Royal College of Surgery of London, Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears, when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.
TAKE PARTICULAR NOTICE.
Dr. J. addresses all those who have injured themselves by improper use of the body and solitary habits, which ruin both body and mind, unaffording them for either business, study, society or marriage.
These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.
ASTHMA.—T. fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.
Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.
YOUNG MEN
Who have injured themselves by a certain practice, already described, a habit frequently learned from evil companions or at school, of which are nightly fond when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.
What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from a bright prospect and enjoyment of life by the consequence of deviating from the path of nature, and indulging in pernicious habits. Such persons must, before contemplating
MARRIAGE
Reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that true happiness of another is blighted with our own.
DISEASES OF IMPRUDENCE.
When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it is too dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from whence no traveller returns."
It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskillful PRETENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious compounds, and instead of being relieved in despair leave him with ruined health, to sigh over his galling disappointment.
